Gabriel:
E                A               B          E
Once I have been lost in what they told me to believe
B    Dbm             Abm            A             B
Until I felt in burning deep inside to set my spirit free
    E            A              B             E
And I escaped to another world to help the little men
    B    Dbm            Abm          A            B      Gbm
who make me plunge into philosophy - to feel my mind again...

No one left to hold me tight - on the
                 E Am  G  C
`real`other side but  her in   chains
E                         A
I had been alone till the madman come along
         B                      E
With the knowledge and silver long beard
B       Dbm            Abm      A              B
He was the first man ever teaching how I could be free
E                             A
Helping me to find - oh - the mind and the soul
             B            E      B
They've been trying to hide away...
       Dbm              Abm         A
And he promised we'd help Anna if I'd help him to
           B    A  B
go all the way

Lugaid:
E  E    E  E            A     Dbm  B     A  B
Go     all  the    way into the world of   minds
E  E  E  E              A     Dbm  B
Op  -  en the    gate and do not close behind
   A                        B
Prevent them from hiding the light away
   E                      A
Prevent them from tellin' us tales
       Gbm
Or the end of all they scare us with will be a
B
million empty brains...
