

3 Doors Down - Citizen (Soldier)

Tom: E	Dbm A E
Beyond the boundaries of your city's lights,	Citizen soldiers holding the light for the ones that we guide
Stand the heroes waiting for your cries.	from the dark of despair.
So many times you did not bring this on yourself,	Standing on guard for the ones that we sheltered,
When that moment finally comes,	We'll always be ready because we will always be there...
I'll be there to help.	There...There...There
	There...There...There
On that day when you need your brothers and sisters to care,	Hope and pray that you'll never need me,
I'll be right here.	But rest assured I will not let you down.
Citizen soldiers holding the light for the ones that we guide	I'll walk beside you but you may not see me,
from the dark of despair.	The strongest among you may not wear a crown.
Standing on guard for the ones that we sheltered,	On that day when you need your brothers and sisters to care,
We'll always be ready because we will always be there.	I'll be right here!
When there are people crying in the streets,	On that day when you don't have the strength for the burden
When they're starving for a meal to eat,	you bear,
When they simply need a place to make their beds,	I'll be right here!
Right here underneath my wing,	Citizen soldiers holding the light for the ones that we guide
You can rest your head.	from the dark of despair.
On that day when you need your brothers and sisters to care,	Standing on guard for the ones that we sheltered,
I'll be right here.	We'll always be ready because we will always be there.
