Primeira parte:
                                                                                   C
                                                                 Everything I know,
                                                                                     and anywhere I go
A hundred days have made me older Since
                                                                                          F(7M/9)
                                     Am F(7M/9) G
                                                               It gets hard but it won't take away my love,
    G
The last time that I saw your pretty face,
                                                                                             C
                                                                  And when the last one falls,
           Am
A thousand lies have made me colder,
                                                                                       G
                                          Am F(7M/9) G
                                                               when it's all said and done.
      G
And I don't think I can look at this the same
                                                                                         F(7M/9)
                                                               It gets hard but it won't take away,
Am
                              G
  And all the miles that separate,
                                                                     C G Am F(7M/9) G
