Em               D         G           D
     What a wonderful hesitation
Em               D          C  D
     who would bear to feel sorry for me
Em                  D                 G        D
     dropped another pill just to calm me
Em                   D             C7M            C   C7M
     collapsed to my knees and fell fast into sleep
                    C
     There I was drifting
      G  Am      C       G
     way out into the sunshine
                  Am7           C           G
     expecting to crash but I'm tied to a string
             Am7       C       G
     Look at me I'm a tangled puppet
                   Am         C               G    D     E
     I might be a mess but I sure can survive
Em                   D                  G        D
     find myself awake counting sad days
Em        D             C D
     1-2-3 that's too many for me
Em                   D                 G     D
     dropped another pill just to find me
Em                   D
     reached for my hand
                  C7M        C   C7M
     but it was already there
                  C
     then I started believin'
     G     Am                 C        G
     that I fell out of a tiny raindrop
                     Am7          C          G
     that  lost it's way when it decided  to roam
             Am7        C     G

     chasing me was a hungry dweller
                    Am            C            G
     but I had escaped it by pretending to die
      C   C7M   C
     Come follow me you won't expect the illusion
                                   G        D   Em
     you'll see, it's my immagination
      C   C7M        C
     hand me your eyes
     C
     I will put them in front of mine
                         G
     You'll see a little better
     You'll see a little better

Em              D        C    D
     where I'm now I can no longer see
Em                   D             G         D
     dropped another pill just to kill me
Em                    D              C7M          C    C7M
     collapsed to my knees and fell fast into sleep

                    Am            C       G
     expecting to crash but I'm tied to a string
            Am         C      G
     Look at me I'm a tangled puppet
                   Am          C           G
     I might be a mess but I sure can survive
                    Am            C        G
     But i had escaped it by pretending to die.
