## 5 Seconds Of Summer - Amnesia

Its like we never happened was it just a lie? I drove by all the places we used to hang out getting wasted If what we had was real how could you be fine? I thought about our last kiss the way it felt the way you Cause im not fine at all tasted And even though your friends tell me youre doing fine I remember the day you told me you were leaving And youre somewhere feeling lonely even though hes right I remember the makeup running down your face And the dreams you left behind you didnt need them When he says those words that hurt you do you read the ones i wrote you? Like every single wish we ever made Bm I wish that i could wake up with amnesia Sometimes i start to wonder was it just a lie? If what we had was real how could you be fine? Forget about the stupid little things Cause im not fine at all Like the way it felt to fall asleep next to you And the memories i never can escape I remember the day you told me you were leaving I remember the makeup running down your face If today i woke up with you right beside me And the dreams you left behind you didnt need them Like all of this was just some twisted dream Id hold you closer than i ever did before Like every single wish we ever made And youd never slip away I wish that i could wake up with amnesia And youd never hear me say Forget about the stupid little things I remember the day you told me you were leaving Like the way it felt to fall asleep next to you And the memories i never can escape I remember the makeup running down your face And the dreams you left behind you didnt need them Cause im not fine at all Like every single wish we ever made The pictures that you sent me theyre still living in my phone I wish that i could wake up with amnesia Ill admit i like to see them ill admit i feel alone All my friends keep asking why im not around Forget about the stupid little things It hurts to know youre happy and it hurts that youve moved on Like the way it felt to fall asleep next to you Its hard to hear your name when i havent seen you in so long And the memories i never can escape Cause im not fine at all
