

## 5 Seconds Of Summer - Broken Pieces

Tom: C

C G  
I woke up in the place we started

Am F  
Your clothes on the floor in that old apartment

C G Am F  
I never thought you'd leave without a trace

C G  
Can't shake this sinking feeling

Am F  
And I know you're not there and I'm barely breathing

C G Am F  
Holding onto things I can't replace

C G Am F  
I'm looking for a way to change my mind, don't walk away

C G  
Oh! tell me what we're fighting for

Am  
Its turned into an all out war

F C  
I'll find a way to fix these broken pieces and let go

G  
I'm trying to find my way back home

Am  
If it takes until I'm skin and bones

F C  
I'll find a way to fix these broken pieces and let go

C G  
Our last words ringing in my head

Am F  
I wish we'd take back all the things we said

C G Am F  
I'm trying to find a way to yesterday

C  
Talking in circles

G Am F  
Chasing our tails and wondering why we created this wasteland

C G Am F  
I wish you wouldn't be so cavalier

C G Am F  
I'm looking for a way to change my mind, don't walk away

C G  
Oh! tell me what we're fighting for

Am  
Its turned into an all out war

F C  
I'll find a way to fix these broken pieces and let go

G  
I'm trying to find my way back home

Am  
If it takes until I'm skin and bones

F C  
I'll find a way to fix these broken pieces and let go

F C  
Fix these broken pieces and let go

Am F C  
We're fading out, we're all alone

G Am  
It's what you wanted, I suppose

F C  
I can tell you feel the same

G Am F  
When you say you're looking for a way to change your mind

C  
You walk away

C G  
Oh, tell me what we're fighting for

Am  
Its turned into an all out war

F  
We'll find a way to fix these broken pieces

C G  
Oh! tell me what we're fighting for

Am  
Its turned into an all out war

F C  
I'll find a way to fix these broken pieces and let go

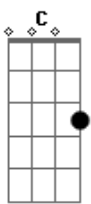

G  
I'm trying to find my way back home

Am  
If it takes until I'm skin and bones

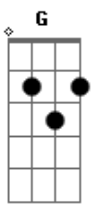

F C  
I'll find a way to fix these broken pieces and let go

F C  
Fix these broken pieces and let go
