

# 5 Seconds Of Summer - Flatline

tom:  
Capostrate na 2ª casa

## [Primeira Parte]

Should've seen me like a year ago, year ago  
I was someone you don't even know, even know  
Dark time's kept me all alone, all alone  
You were shining like a heart of gold, heart of gold

## [Pré-Refrão]

Someone just like you, no one else  
And lights will guide you, so run like hell

## [Refrão]

Ooh, I'm falling for the first time  
Heart is gonna flatline  
Now I can't even look at you  
You're like staring at the sunshine  
Burnin' into my mind  
'Cause I can't even look at you  
I'd die all day and every night just to miss you  
Ooh, I'm falling for the first time  
Heart is gonna flatline  
Now I can't even look at you

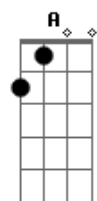

## [Segunda Parte]

People always say it's hard to change, hard to change  
I've seen the signs and I know it's hard to fake, hard to fake  
I say, "I love you," I don't hesitate, hesitate  
And now I wanna see you every day, everyday, yeah

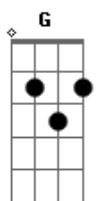

## [Pré-Refrão]

Someone just like you, no one else (Else)  
And lights will guide you, so run like hell
