

5 Seconds Of Summer - Not In The Same Way

tom:
[Refrão]

Drink all night, never sleep
You say, "Go," I won't leave
I love you, you love me
But not in the same way
Rip my heart out and leave
On the floor, watch me bleed
I love you, you love me
But not in the same way

[1ª Parte]

Not today
Mascara's runnin' down your face again
I can feel it comin' down on me
Hurricane is her name, we're good at this game, game

[Pré Refrão]

We fuck and we fight, then you call me a psycho
I walk out the door, but you won't let me let go
Tumblin' around, throwin' rocks at your window
But I can't forget you, and I always let you

Drink all night, never sleep
You say, "Go," I won't leave
I love you, you love me
But not in the same way
Rip my heart out and leave
On the floor, watch me bleed
I love you, you love me
But not in the same way
Drink all night, never sleep
You say, "Go," I won't leave
I love you, you love me
But not in the same way
Rip my heart out and leave
On the floor, watch me bleed
I love you, you love me
But not in the same way

[2ª Parte]

Not today
I'm wakin' up to my mistakes again
I know you love to point them out
Baby, I'm sick of sadness and you're sick of Xanax
We're good at this game, game

[Pré Refrão]

We fuck and we fight, then you call me a psycho
I walk out the door, but you won't let me let go
Tumblin' around, throwin' rocks at your window

But not in the same way
Way
But not in the same way

[Ponte]

I never wanna lie to you
But I can't say no to you
I know you think I'm bulletproof
But you know how to hurt me too
In the dark, we're black and white
In the morning, colourblind
