5 Seconds Of Summer - Old Me

tom:
```
                          C
```

```
                         Am
Shout out to the old me
             Em
And everything he showed me
                    C
Glad you didn?t listen when the world was trying to slow me
           Am
No one could control me
            Em
Left my lovers lonely
              C
Had to fuck it up before I really got to know me

            Am
Never a night alone
             Em
Anywhere you wanna go
           C
Woke up in the morning wearing someone else?s clothes
            Am
Pictures in my phone
              Em
With people I don?t know
            C
Woke up in the morning how the hell?d I make it home
            Am                        Em
And they wondered how long I could keep it up
           C
While I wondered if I?d ever, if I?d ever get enough
           Am              Em
And I did some shit I never should have done
          C
I would do it over now, I?d do it over

            Am
Shout out to the old me
             Em
And everything he showed me
                    C
Glad you didn?t listen when the world was trying to slow me
           Am
No one could control me
            Em
Left my lovers lonely
              C
Had to fuck it up before I really got to know me, ey-ey
  Am                        Em
All of the mistakes I made, I made, I made, I made
  C
Whatever the price I paid, I paid, I paid, I paid
            Am
Shout out to the old me
             Em
And everything he showed me
              C
Had to fuck it up before I let you get to know me

              Am
Another round here we go
             Em
Going in blow for blow
           C
Look into the mirror take the punches that I throw
```

```
                     Am                        Em
I?m constantly reminded of all the compromises by the people
from my
C
past who have a hard time letting go
               Am                        Em
And they wondered how long I could keep it up
              C
While I wondered if I?d ever, if I?d ever get enough
           Am              Em
And I did some shit I never should have done
          C
I would do it over now, I?d do it over, ey-ey
            Am
Shout out to the old me
             Em
And everything he showed me
                    C
Glad you didn?t listen when the world was trying to slow me
           Am
No one could control me
            Em
Left my lovers lonely
              C
Had to fuck it up before I really got to know me, ey-ey
  Am                        Em
All of the mistakes I made, I made, I made, I made
  C
Whatever the price I paid, I paid, I paid, I paid
            Am
Shout out to the old me
             Em
And everything he showed me
              C
Had to fuck it up before I let you get to know me, ey-ey

Am            Em
Devil at my door
           C
Got me knockin? knockin? knockin? on the other side
Am
Ashes on the floor
          C
But I?m walkin? walkin? walkin? outta here alive

            Am
Shout out to the old me
             Em
And everything he showed me
                    C
Glad you didn?t listen when the world was trying to slow me
           Am
No one could control me
            Em
Left my lovers lonely
              C
Had to fuck it up before I really got to know me, ey-ey
  Am                        Em
All of the mistakes I made, I made, I made, I made
  C
Whatever the price I paid, I paid, I paid, I paid
            Am
Shout out to the old me
             Em
And everything he showed me
              C
Had to fuck it up before I let you get to know me, ey-ey
```
