C Em  
C Em D

[Verse 1]

C Em  
December ain't cold at all this year in Florida  
C Em D  
But I'm still chilled to the bone  
C Em  
The wind plays tricks this time of year in Florida  
C Em D  
It's not the time to be alone

[Chorus]

C D Em  
I feel the less you love the less you feel alive  
C D Em  
I feel to understand it starts from the inside  
C D Em  
And I feel that patience is a lesson learned in time  
C D  
To be good with your own life's to be good with mine

[Verse 2]

C Em  
Time stands still this time of year in Florida  
C Em D  
The only time I feel at home  
C Em  
The neighborhood kids run down the road in Florida  
C Em D  
It's got me scared I missed the boat

[Chorus]

C D Em  
I feel the less you love the less you feel alive  
C D Em  
I feel to understand it starts from the inside  
C D Em  
And I feel that patience is a lesson learned in time  
C D  
To be good with your own life's to be good with mine  
C D  
To be good with your own life's to be good with mine

[Interlude]

C Am C Am

[Bridge]

C Am  
I always knew that I would leave  
C Am  
But I didn't think it'd change a part of me  
C Am  
Can't get back to who I was back then (I was back then)  
C Am  
Feels wrong to shut that out  
C D Em G C G D  
Seems wrong to pretend, to pretend

[Chorus]

C D Em  
I feel the less you love the less you feel alive  
C D Em  
I feel to understand it starts from the inside  
C D Em  
And I feel that patience is a lesson learned in time  
C D  
To be good with your own life's to be good with mine  
C D  
To be good with your own life's to be good with mine
