A-Ha - A Little Bit

Tom: C

```
   (intro)   Am G

       Am                         G
And it will take a little bit of extra time
   Dm                    G
To make it shine, to make it shine
       Am                         G
And it will take a little bit of extra care
   Dm                    G
To bring it where you think it's there

Am              G            Dm
   And there's no one else around
F                   G
This is what I've found

       Am
Anyone you see
       G
Anyone you meet
           Dm
Someone at your feet
         G
Anyone could be that one
         Am
Anyone you know
         G
Anywhere you go
           Dm
Someone in a show
         G
Could be that one

( Am G )

       Am                             G
And it will take a little less of it all you've got
   Dm                  G
To get a shot, to get a shot
       Am                         G
And it will take a little bit of extra care
     Dm                    G
To bring it where you think it's there

Am              G            Dm
   And there's nowhere else to go
F                   G
This is what I know

       Am
Anyone you see
       G
Anyone you meet
           Dm
Maybe down the street
         G
Anyone could be that one
             Am
Everywhere you look
         G
Pages of a book
               Dm
```

```
All the years it took
                 G
Everything got you down

       Gbm                          E
And it will take a little while to get back home
     Bm                E
The road is long, the road is long
       Gbm                         E
And it will take a little work to get it back
     Bm                  E
To mend the cracks, to bridge the gaps

                Bm
Anyone you see
         A
Could be the one
             Em
Anyone you meet
         A
Could be that one
                 Bm
Someone at your feet
         A
Could feel the same
             Em
Maybe you'd complete
         A
Could share your name

             Abm
Anywhere you look
             Gb
Pages of a book
             Dbm
Everything she took
               Gb
Never let it keep you down
             Abm
Holding out for used
               Gb
Broken up and bruised
             Dbm
Losable to lose
Gb      Bm     A  Em   A
Oooooooh...

( Bm A Em A )

                Bm
Anywhere you go
         A
Anyone you know
               Em
Think it doesn't show
         A
Everybody knows
             Bm
Anyone you meet
(And it will take a little time..)
                     A
Maybe down the street
(...to get back home...)
             Em     A
Some one at your feet
```
