

# A-Ha - Giving Up The Ghost

Tom: C

Intro: C E Em C E

Icy road, blinding dark  
 Rolling hills in the distance  
 Open wound, painful scar  
 Love has left its burning trademark  
 ( C Em C E )

Off the grid, out of bounds  
 Further down into shadow  
 Darkest day and whitest night  
 In harm's way  
 We're chasing rainbows  
 Giving up the ghost  
 Giving up the ghost  
 That's what hurts the most  
 You sever all my heads  
 You place them on your bed  
 Some part of your great scheme  
 To vow me into si.....lence  
 Giving up the ghost  
 Giving up the ghost  
 That's what hurt the most  
 Frozen lake soon will flow  
 Frozen ground soon to follow  
 But hey ? everything is in your head  
 And what you killed is never dead  
 Giving up the ghost  
 Giving up the ghost  
 Giving up the ghost

Giving up the ghost  
 Giving up the ghost  
 On what you loved the most  
 On a coal-black sea, the sky's on fire  
 Failed attempts at a funeral pyre  
 Deep as dreams of dark desire  
 The flames are growing ever higher  
 You sever all my heads  
 You place them on your bed  
 Some part of your great scheme  
 To vow me into si.....lence  
 Giving up the ghost  
 Giving up the ghost  
 Giving up the ghost  
 Giving up the ghost  
 Giving up the ghost  
 You sever all my heads  
 You place them on your bed  
 Some part of your great scheme  
 You sever all my heads  
 You place them on your bed  
 Some part of your great scheme  
 Giving up the ghost  
 Giving up the ghost  
 You place them on your bed  
 Giving up the ghost
