

# A-Ha - Living At The End Of The World

Tom: D

Intro: D D D A

Sometimes it leaves me with fear  
Never saw the horizon this near  
Look to the left then to the right  
I tuck you in and kiss you goodnight  
See there is something I know  
We are not whom we're told  
We are more than we'll never know  
And we're living at the end of the world  
Forget about all that you've heard  
Living our dreams on the highway  
It's just another day  
No matter what they say or you've heard  
We're living on top of the world  
We're living our dreams on the highway  
No matter what they say  
It's just another day  
I hear your heart beat in the night  
You are like an echo of light  
But in times when shallow runs deep

Your golden beauty goes cheap  
Still there is something I know  
Something yet to unfold  
And we are more than we'll never know  
And we're living at the end of the world  
Forget about all that you've heard  
Living our dreams on the highway  
It's just another day  
No matter what they say or you've heard  
We've made it to the top of the world  
Building up speed on the highway  
We've made it to the end  
Living at the end of the world  
( A D A Em7 D A D G G7M D )  
Forget about all that you've heard  
No matter what they say  
Living at the end of the world  
Living about all that you've heard  
Building up speed on the highway yeeeee
