

# AA Bondy - Mightiest Of Guns

Tom: **C**

(com acordes na forma de **G** )

Capostrate na 5ª casa

You see the Sunday birds swinging low  
And the fever in your brain only grows  
And the murder boys they're running down the street  
You can see them through the window from your seat  
Hear the sound of the mightiest of guns

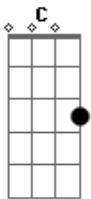

When the shadows run like ghosts across your room  
Do you take your world and burn it in a spoon  
A mercy ship to sail you off to sleep  
To where the crimson angels swim the deep  
But there's no hiding from the mightiest of guns

With every breath you drink in the night  
Cause you won't give up your blues without a fight  
And looking at the sky there is no pain  
And the stars keep falling down like burning rain  
They were fired by the mightiest of guns

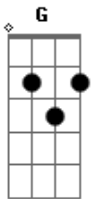

[Solo]

Tomorrow I'll be out of my mind  
The bear will dance and the organ will grind  
I'm laughing cause I know there ain't no sin  
All the world on the head of a pin  
Turning fast beneath the mightiest of guns  
Turning fast beneath the mightiest of guns
