ABBA - I have a dream

Tom: Bb

```
   (intro) Bb        F7          Bb

Bb          F7              Bb                  F7          Bb
 I have a dream, a song to sing to help me cope with anything.
                   F7                Bb
 If you see the wonder of a fairy tale,
                 F7                 Bb
 You can take the future even if you fail.
                 F7                             Eb          Bb
 I believe in angels, something good in everything I see,
                 F7                        Eb          Bb
 I believe in angels when I know the time is right for me.
```

```
                        F7              Bb
       I'll cross the stream,  I have a dream.

Bb         F7          Bb                 F7      Bb
 I have a dream, a fantasy to help me through reality.
                    F7                   Bb
And my destination makes it worth the while,
                  F7                       Bb
Pushing through the darkness still another mile.
                 F7                        Eb          Bb
 I believe in angels something good in everything I see,
                 F7                        Eb           Bb
 I believe in angels when I know the time is right for me.
                        F7              Bb
 I'll cross the street, I have a dream.
```
