

Abbey Lincoln - Evening Star

```
Tom: G
If you never rode West of
The Arizona border
You can turn the other way, boy
But you never get far
You be living a lie
If you wanna see the wonders of the age
You must follow
       G
The evening star
Chorus
Evening star
Shine a little heaven on a stranger with no dream
Where you are you can see the loneliness I mean
And if I gotta I can never play
Somebody else's game D G
I can follow the evening star
        G C
If you follow the evening star
         G
Have you ever known a sunset
When the sky's on fire
           G
How you end another day, boy
You be searching too far
```
