Across The Universe - If I Fell

Tom: G

```
        Abm
If I fell in love with you,
          G
Would you promise to be true
     Gb     Ebm
And help me understand.

      Abm
Cause I've been in love before
         G
And I've found that love was more,
      Am          D
Than just holding hands.

(Refrão)

     G   Am  Bm       Am
If I give my heart to you,
     D                 G Am Bm
I must be sure from the very start
     Am         D               G    Am D
That you would love me more than her

     G     Am  Bm
If I trust in you,
   Am            C
Oh please, don't run and hide
   G       Am  Bm
If I love you too,
   Am            D                G
Oh please, don't hurt my pride like her

                              C
Cause I couldn't stand the pain
    Cm                         G           D
And I, would be sad if our new love was in vain

     G    Am  Bm
So I hope you see,
    Am       D
That I would love to love you

G Am Bm  Am D   G

     Dbm               G
If I fell in love with you.
```
