

# Adam Lambert - No Boundaries

Tom: **D**

**D**  
Seconds hours so many days

**A**  
You know what you want but how long can you wait

**Bm** **G**  
Every moment last forever if you feel you've lost your way

**D**  
What if your chances are already gone

**A**  
Started believing that I could be wrong

**Bm**  
But you give me one good reason

**G**  
to fight and never walk away

**Bm** **G**  
Coz hear I am - still holding on! (YEAH!)

**D**  
Every step you climb another mountain

**A**  
Every breathe its harder to believe

**Bm**  
You'll make it through the pain (or through all your aches and pains)

**G**  
Weather the hurricane

**A**  
To get to that one thing

**D**  
When you think the road is going nowhere

**A**  
Just when you've almost gave up on your dreams

**Bm** **G**  
Then take it by the hand and show you that you can

**Bm**  
You can go higher

**A**  
You can go deeper

**Bm**  
There are no boundaries

**A**  
Above and beneath you

**Bm**  
Break every rule coz there's nothing between you

**G**  
and your dreams

**D**  
Every step you climb another mountain

**A**  
Every breathe its harder to believe

**Bm**  
You'll make it through the pain (or through all your aches and pains)

**G**  
Weather the hurricane

**A**  
To get to that one thing

**D**  
When you think the road is going nowhere

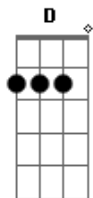

**A**  
Just when you've almost gave up on your dreams

**Bm** **G**  
Then take it by the hand and show you that you can

**D** **A** **Bm** **G**  
Cuz there are no boudaries!

**G**  
There are no boudaries?
