I got at least 5 requests for this song in my guestbook. I actually think it was the same guy over and over again because I'd never heard of this song and then suddenly I got 5 requests. But I decided to tab it, it's easy, just 4 chords, the only trick is to get the right rhythm, it's kinda strange. Enjoy!! The song is mostly just bass, you don't hear the guitar much. But I've come up with a rhythm you can use so you incorporate parts of the bass line. I play the chords like this:

d u d u d u d u d u d u

d = downstroke

u = upstroke

= this means strum the chord down kinda slowly so you can hear each and every string ring out, kinda like spanish guitar.

I play the A chord the same, like this:

d u d u d u d u d u d u

Of course you don't HAVE to play them like this, it's just a suggestion, I think it sounds good. You just have to get the

I've committed no crime

Bumping my head into doorways

It happens all the time

I'm 7 foot tall and I repeat

They don't make a ski boot that can fit my feet

I'm 7 feet tall and I don't play basketball

VERSE 2:

I'm 7 feet tall, but I'm still just a man

So of course it hurts me a lot

When I walk into the ceiling fan

Small people say "I wish I was him"

But it's been nine years since I had a trim

The barber said "I can't reach the top of his head"

BRIDGE:

7 foot man, I cannot hide

7 foot man, I know 'cause I've tried

7 foot man, my last girlfriend died

Because my penis is 7 foot wide!

VERSE 3:

So the next time you see me walking around

And my head's right about to hit a tree branch

Tell me to duck down

And I'll pay you back, soon you will see

By getting your frisbee down from that tree

I do what I can I'm the 7 foot man

7 foot man! 7 foot man!
