                                                              It's a place, where a garden never grows
                                                                                  Cm

                                                                I'm as dry a seven year tought
                                                                I got dust for tears
I'm down a one way street >
With a one night stand >>>
                                                                And I'm all tapped out
With a Fone track mind

  (The punishment sometimes don't seen to fit the crime)
                                                              I know there's been all kinds of
Yeah there's a hole in my soul
                                                              Shoes underneath your bed
But one thing I've learned
                                                              Now I sleep with my boots on but
For every love letter written
                                                              You're still in my head
There's another one burned
E (Ou Riff 2)
                                   Em (Ou Riff 2)

   (So you tell me how it's gonna be this time)
                                                                (And something tells me this time

                                                                 I'm down to my last licks)
               Is it over
Is it over...
                                                              Cause if it's over...
                 D
Cause I'm blowing out the flame
                                                              Then it over

                                                              And it's driving me insane
