Cause I just can't believe the way you kiss
                                                               The kind that likes to leap without a shove
Uh huh

You opened up your mouth with baited breath

You said you'd never leave me.
                                                               I hope all is forgiven
You love me, you hate me, I tried to take the loss
