

After That - Beauty Queen

tom:

It's 4:00 am
 I'm not sure if I can
 Sleep tonight
 Only wish you by my side

I can't forget the last night
 Her gaze was like a strong light
 Which led me to another dimension
 Her mouth that made me have other intentions

And I don't know why
 My troubles seemed so far away
 If it's just a game
 I just want to play

Beauty queen
 I don't know what your look means
 Mysterious and immense as the sea
 In which I want to get lost

Beauty queen
 Don't be afraid, just hold on me
 I'll protect you in my arms at the end
 Just kiss me all night long

Do you remember the first time?
 That ragged excuse
 To talk to you
 I looked like a fool

You took me out of my own darkness
 You taught to see life in another way
 You taught that here is a better place

Beauty queen
 I don't know what your look means
 Mysterious and immense as the sea
 In which I want to get lost

Beauty queen
 Don't be afraid, just hold on me
 I'll protect you in my arms at the end
 Just kiss me all night long

With just a sincere smile
 You made my heart beat again
 And I don't know, it's some magic or pray

Baby you're not alone
 I'll stay here for long
 Long of time for you
 Sorry for my patches
 We leave the past to ashes
 You make me feel brand new

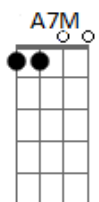

Beauty queen
 I don't know what your look means
 Mysterious and immense as the sea
 In which I want to get lost

Beauty queen
 Don't be afraid, just hold on me
 I'll protect you in my arms at the end
 Just kiss me all night long

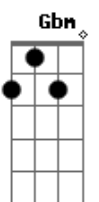

Beauty Queen, oooh Beauty Queen
 Beauty Queen, oooh Beauty Queen

Please don't say goodbye
