The guitars are tuned 1/2 tone lower, so if you want to play with the music and not lower your strings, then play the chords 1 step higher. I am not sure for the names of the chords, but who cares?

Here's the intro, I believe the guys are using loads of effects (distortion and flanger/chorus).

This is the intro:

e --x--	e --x--	e --x--	e --x--
B --x--	B --x--	B --x--	B --x--
G --7--	G --7--	G --7--	G --7--
D --7--	D --6--	D --5--	D --4--
A --5--	A --5--	A --5--	A --5--
E --x--	E --x--	E --x--	E --x--

There is also a picking bit while the heaving chords are played at about 0min55s. This is not accurate, but should give a pretty good idea on what to play.

Then, here comes the bridge:
