

Alanis Morissette - Citizen Of The Planet

Tom: **Ab**

Intro: **Db B A Ab**

Db **B**
I start up in the north
A
I grow from special seed
Ab **Db** **B**
I sprinkle it with sensibility from French and Hungarian snow
A **Ab**
I linger in the sprouting until my engine's full

(**Db B A Ab**)
Then I move across the sea
To European bliss
To language of poets
As I cut the cord of home
I kiss my mother's mother
Look to the horizon

(**Db B A Ab**)
Wide eyed, new ground
Humbled by my new surroundings

Db **Eb D**
I am a citizen of the planet
Db **Eb D**
My president is kwan yin
Db **Eb D**
My frontier is on an airplane
Db **Eb D**
My prisons: homes for rehabilitating

Db B A Ab

(**Db B A Ab**)
Then I fly back to my nest
I fly back with my nuclear but everything is different

So I wait, my yearn for home is broadened,
Patriotism expanded by calling from beyond
So I pack my things nothing precious all things sacred

(**Db Eb D**)
I am a citizen of the planet
My laws are all of attraction
My punishments are consequences
Separating from source the original sin

(**Db Eb D**)
I am citizen of the planet
Democracy's kids are sovereign
Where the teachers are the sages
And pedestals fill with every parent

(**Db B A Ab**)
And so, the next few years are blurry
The next decades' a flurry of smells and tastes unknown
Threads sewn straight, through this fabric,
Through fields of every color, one culture to another

(**Db B A Ab**)
I come alive and I get giddy
I am taken and globally naturalized

(**Db Eb D**)
I am a citizen of the planet
From simple roots through high vision
I am guarded by the angels
My body guides the direction I go in

(**Db Eb D**)
I am a citizen of the planet
My favorite pastime edge stretching
Besotten with human condition
These ideals are borne from my deepest within
