[Primeira Parte]

```
Dbm                 A
Let me down and I'm right here where you want me
E                   Gbm              Dbm A
All your words, but it hurts I'm a thorn on a vine
                  E Gbm
Hanging on every line
```
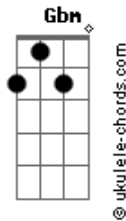

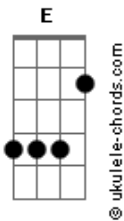

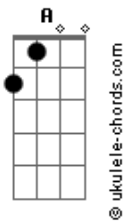

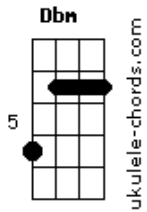

```
Dbm                   A
Let me in and I'll never try to save you
E          Gbm                       Dbm A
Fever hearts, burning dark, I'm a fire in the rain
                E Gbm
Hanging on every flame
```

[Refrão]

```
    E                    Abm
But you, ooh you leave me paralyzed
Dbm                 A        B
And you bring me back a thousand times
E                    Abm
Oh you, sweeter than your hold over me
Dbm                      A Am
Tainted too, you take my breath away
      Dbm        A
Nightshade, Heeeey
      E          B
```
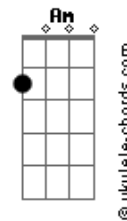

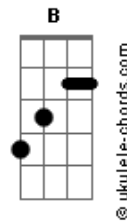

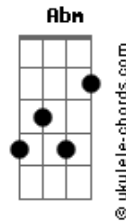

Nightshade, Heeeey

[Segunda Parte]

Waves of pain, but you know that I won't rush you
E                     Gbm               Dbm A
Poisoned fruit, by the root and I can't get enough
                      E Gbm
You can take what you want
```
