Em   C
As I watch the setting sun
G
Today has come and gone
D   Em
Just like every yesterday becomes
                    C
Tell myself that I'm okay
                        G
That tomorrow things may change
                    D   C
Just as long as I keep moving on and on and staying strong
Start me up I'll never stop

Em   C
Through all the mistakes that I have made
                                G
Through the times felt myself fade
God I wish I would've stayed

D   D
Just another chance, I didn't take
Em
Now all these thoughts in my head
What I feel, what I've said
                              C
What I know that I've got to let go
                                G
Before this hurt takes control
Of my body and soul
D
Slipping away.
                    C
I'm slipping away
D   C
Start me up once and I'll never stop
G
Get up, get up
                  Em
Get off your knees
Get up, get up
                  C
Get on your feet, yeah
D   Em
Give it all you've got
                    D   Am
Come on and get up, get up

D   Am
Laying here under the stars
D   Am
Wondering what we all are
                  G
See nothing really matters
                C   D
When your hearts been hurt or shattered
                        Em
Whatever you do
It comes back to you

G
Get up, get up
                  Em
Get off your knees
Get up, get up
                  C
