

## **Alex Miller - More Country Than You**

```
I grew up on a farm
                tom:
                                                                So what
Intro: G
 You know folks say
                                                                I got a rooster in my yard
I'm the countriest person they know
Oh really
                                                                   G
                                                                I think, I think
Honey those folks are wrong
                                                                I'm a little more country than you
[Primeira Parte]
                                                                [Solo] G7 C Db G D7 G7 G
Well I can stack bales of hay
                                                                [Terceira Parte]
In a barn loft all day long
                                                                I got a four by four
I can grab my ole guitar
                                                                I can drop a tailgate
And sing you a Bocephus song
                                                                I speak fluent southern
I wear a Bas Pro hat
                                                                Now don't you tell me I can't
I like a Copenhagen chew
                                                                I make biscuits and gravy
                                  D7
Girl I think I'm a little more country than you
                                                                Not like my mama can do
[Segunda Parte]
                                                                Ah well your mama wishes
                                                                   G
Well I can bait my own hook
                                                                I think
Put up my own deer stand
                                                                Well I think
I squirrel my cash away
                                                                I'm a little more country than you
In a coffee can
                                                                [Refrão]
My pair of Lucchese boots
                                                                That Blue Moon shines on My Old Kentucky Home
Know how to boot scoot
                                                                Aw but Rocky Top is the countriest song I know
                                 D7
 Boy I think I'm a little more country than you
                                                                I grew up on a farm
[Refrão]
                                                                I got a rooster in my yard
That Blue Moon shines on My Old Kentucky Home
                                                                I think, I think
Aw but Rocky Top is the countriest song I know
                                                                I'm a little more country than you
