

# Alexander Stewart - If You Only Knew

tom: C

I've been trying so hard to survive C  
Sometimes I think that I wanna die G  
I feel so fucking guilty cuz god Dm  
I'm so lucky to live my life F  
So I keep all the pain to myself C  
Losing faith but nobody can tell G  
Mom, I don't want you worried cuz that would just hurt me Dm  
So I pretend I'm fine F  
If you only knew C  
What my mind is telling me I should do G  
That I'm drunk and all alone in my room here tonight Dm  
I'm too sad to cry it's true F G  
If you knew C  
All the shit my brain is putting me through G  
You'd come running over straight to my room here tonight Dm  
I'm sorry but I need you F G  
If you only knew C  
I wish I was somebody else C

I'm constantly overwhelmed Dm  
Now I'm falling again getting drunk with some friends F  
It's a silent cry for help Am Em  
I wanna get better, want you to know Dm F  
That I can't do this on my own C  
If you only knew G  
What my mind is telling me I should do Dm  
That I'm drunk and all alone in my room here tonight F G  
I'm too sad to cry it's true C  
If you only knew G  
All the shit my brain is putting me through Dm  
You'd come running over straight to my room here tonight F G  
I'm sorry but I need you C  
Take me out of this hell F  
Oh, somebody help C  
Take me out of this hell F G  
Oh, I'm not myself C  
I wanna tell you what my mind is telling me I should do G  
That I'm drunk and all alone in my room here tonight Dm  
I'm too sad to cry but I want to F G  
Oh, if you only knew C
