

Alicia Keys - It's on Again

Tom: C

But this is bigger than triumph
 This is for the warrior, this is for you and I
 This is for euphoria, give me a piece of mind
 God is recording this! won't you look in the sky?
 Tell him you got the behavior of your neighbor
 Even when stability's never in your favor
 Fly with the turbulence, only last a minute
 Land on your dreams, and recognize you live it
 Walk through the valley of peace, with bare feet
 Run through the flames, thats more passion for me
 I passed that, this morning just so the world can see
 Got them wolves on me, no watch me like em clean
 I know, I know, my pride, my ghost, my eyes
 My lows, I know I know, its mind control
 I know I could prosper, no impostor
 Prosecute my posture
 I stand up and I stand by it what

[Verse I Alicia Keys]

I am a freedom fighter,
 the name that history wrote
 and even through disaster, eye of the tiger for hope
 I'm trying to find my way back,
 there's no day off for heroes

And even when I'm tired, go is the only word I know

[Pre-Chorus]

And the night is takin' over,
 and the moonlight gets exposure
 And the players have been chosen,
 and it seems like fate has spoken
 When it seems your faith has broken,
 by the second, losin' focus

Ain't no way to get off, get off, get off, get off
 Unless you move forward

[Chorus]

I bet they wonder ho-----w I go on (go on)
 I bet they wonder ho-----w I go on (go on)
 I'll simply say "it's on again, it's on again" whoa-oh

The world don't stop, it's on again, it's on again, whoa-oh

[Verse II]

I am a lonely hero,
 trying to fight my battles
 Life likes to blow the cold wind, sometimes it freezes my shadow
 In the midst of all this darkness,
 I sacrifice my ego
 There ain't no room for selfish, we do it for the people

[Pre-Chorus]

And the night is takin' over,
 and the moonlight gets exposure
 And the players have been chosen,
 and it seems like fate has spoken
 When it seems your faith has broken,
 by the second, losin' focus
 Ain't no way to get off, get off, get off, get off
 Unless you move forward

[Chorus]

I bet they wonder ho-----w I go on (go on)
 I bet they wonder ho-----w I go on (go on)
 I'll simply say "it's on again, it's on again" whoa-oh
 The world don't stop, it's on again, it's on again, whoa-oh

[Bridge]

Say the work don't stop, cause they don't stop
 And everybody here tryna get on top
 Everybody from the burbs down to the block
 Gotta hold on tight and don't let go, let go
 Huh, So you think you hot?
 Gotta grind hard, give it all you got
 You can have, or you can have not
 You see that a lot in the ghetto (ghetto)

[Chorus]

ho-----w I go on (go on)
 I bet they wonder ho-----w I go on (go on)
 slower strums
 I'll simply say "it's on again, it's on again" whoa-oh
 -single strum
 The world don't stop, it's on again, it's on again, whoa-oh

Acordes
