[Primeira Parte]

Eb          Cm      D       Gm    Eb          Cm            D
Bite your teeth and pretend that you're not all alone
     Gm                     Eb         Cm
And then, took a little time to figure
                 D              Gm
Took a little time, but now I know
             Eb         Cm                  D
You're so up in the clouds, no coming back do-own
[Pré-Refrão]

Gm      Eb          Cm            D
Congratulations, you made your heart vacant
       Gm                 Eb
Now I'm down, down, down, down, down
Cm          D
Low like a basement
Gm      Eb      Cm          D
Manipulations, my double agent
        Gm               Eb                  D
Thinking -- how to say "Fuck you" in a really nice way
[Refrão]

                 Gm        Eb
Do you think I'm stupid?
                 Cm        D
What do you take me for?
          Gm    Eb                 Cm
You left me crying -- on the bedroom floor
           D         Eb  Gm
You played me like a piano
    Bb        Eb Gm   Eb  Cm
Piano-o-o-o  -- Piano
             D

[Segunda Parte]

Gm Eb   Cm        D     Gm
-- Underneath your discontent
Eb      Cm          D     Gm
Tried to act like you never cared
      Eb              Cm
And I don't want to live forever
                 D                     Gm
But you don't even care if your heartbeat stops

You're so up in the clouds
