

All Time Low - Afterglow

```
tom:
               Ab (forma dos acordes no tom de G )
Capostraste na 1º casa
Intro: D G D G
Step outside in the midnight rain
King and queen of the streets again
Got young love running through our veins
                        A D
And it keeps us numb like novacaine
Alright, we can go all night
'Cause we got a whole lot of fight in us
          G D
And I see a long road that we gotta follow
      G D
Before tomorrow catches up
Oh, we just take it easy
               G
Hold on to this feeling
All our friends are leaving
And we ain't got nowhere to go
Caught up in the afterglow
( D G )
Caught up in the afterglow
Can't stay here but you can't go home
                      G
Did you hear that line somewhere before?
And you look just fine on your own
                       G D
But we look better in the afterglow
```
