

All Time Low - Ground Control (feat. Tegan And Sara)

tom:

Intro: Bm D Gbm E

Bm D
Ground control

What do the books say about this one now?
I think we've lost it all

There's nothing to explain the distances any more
All systems are critical

Can't find my way back to you

Feels like there's nowhere to go-oh-oh
I'm just out here waiting for you to say

Don't be afraid, no
If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no
If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no
If you start floating away

(D Gbm E)

Bm A D
Checking in

300 days with no reply now
I think I've lost my mind

There's nothing keeping me from going outside any more
My systems are critical

Gotta find my way back to you

Feels like I'm drifting away-oh-oh
I'm just out here wishing that you would say

Don't be afraid, no
If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no
If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no
If you start floating away

(D Gbm E)
