

# Allan Raph - Nervous

tom:

[Primeira Parte]

Remember the old days

When all we did was waste our time

Monday to Sunday

The best of friends we had in life

Everything was a habit

It was fun now it's tragic

Ever since you got a man

[Segunda Parte]

Remember in high school

Every single class a waste of time

Just to sit by you

You always were my valentine

Everything was a habit

It was fun now it's tragic

Ever since you got a man

[Pré-Refrão]

Don't take yourself away from me

I've known you since we were kids

I see a bit of you in me

[Refrão]

I'm nervous when you come this close

But I really wanna have you close to me

I really wanna feel your skin

And I just don't know what

To say to get you off my mind

I think about you night and day I

Can't focus when your not here

And I need you here with me

( )

[Terceira Parte]

It feels like forever

I'm living on this silver lining

Ain't any better

It seems like you made up your mind

Everything was a habit

It was fun now it's tragic

Ever since you got a man

[Pré-Refrão]

Don't take yourself away from me

I've known you since we were kids

I see a bit of you in me

[Refrão]

I'm nervous when you come this close

But I really wanna have you close to me

I really wanna feel your skin

And I just don't know what

To say to get you off my mind

I think about you night and day I

Can't focus when your not here

And I need you here with me

Nervous when you come this close

But I really wanna have you close to me

I really wanna feel your skin

And I just don't know what

To say to get you off my mind

I think about you night and day I

Can't focus when your not here

And I need you here with me
