

# Alma (France) - Sara

Intro: D A7 Em Gbm G

Tom:

Sara doesnt know anything  
Shes trying to go where shes never been  
Collecting coins for her was a sport  
Now in her free time she sells herself short

Sara sees in me a golden gate  
Silver knife cuts the bow to turquoise waves  
The girl doesnt even really like the beach  
For my sake she's willing to move to Maui

With me  
She's us more than she's she  
Oh, me  
With me  
Stand up for yourself, my dear

( D A7 Em Gbm G )

Wish you could see you're worth fighting for  
But my battle I've fought, it's not my turn  
The promise I made was never to trade  
Sanity for kindness, god, all it brought me was

Fear

So be you more than you're this  
Oh, me  
I'm not free

Sara, I'm working on it  
I got to know your name recently

And i love the sound of it  
The way it works every corner of my mouth, but  
Its not enough  
I think i've learned  
It's never a fantasy

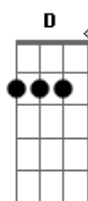

For me  
I've got to need more than my needs

This heart  
It still beats

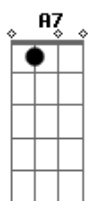

As long as it does, i'll be here  
My mama said it's all i need  
Sara, trust me on this  
Would i lie to you?
