Amandinho - Get Away

Tom: G Intro: Em Bm C G (2x)

Versos e Refrão: Em Bm C G (apenas repetir)

I want to get away From this pain I wanna try To be ok

I have to get away From this pain I wanna cry To be the same

I have declaimed That I'm afraid To realize That's the end

Now I'm saying What I am I mean I'm trying Not to defame

Acordes

Trying to reach what's above my eyes Trying to touch the stars Trying to reach what I cannot find Trying to make a stop

I haven't said Anything How is it like To be acclaimed?

I need a fucking break From this pain A need a time To rearrange

Trying to reach what's above my eyes Trying to touch the stars Trying to reach what I cannot find Trying to make a stop

Trying to reach what's above my eyes Trying to cause a storm Trying to reach what I cannot find Trying to make a stop
