

Amber Liu - Other People

tom:
Capostrate na 1ª casa

Things I shouldn't think about
Wear my heart underneath my sleeves
Waking up to restless dreams
Need to replace
You with other people

Avoid our places
Sleep in other spaces
But nothing changes
I'm replacing you replacing you
Replacing you with other people

With other people
It should be simple
I'm replacing you replacing you
Replacing you with

Love myself I try do it
Hard when everything ain't as sweet
These emotions I can't beat
Need to replace with it other people

I'm in these places
Trying to find the spaces

But nothing changes
I'm replacing you replacing you
Replacing you with other people

With other people
It should be simple
I'm replacing you replacing you
Replacing you with

I remember constantly
Cuz forgetting's hard to do
Sleep in different beds each
Night cuz I hate me going home
At the end every bottle all I see you
Need to replace
Place you with other people
()

Waking up to restless dreams
These emotions I can't beat
I'm replacing you replacing you
You with other people

With other people
It should be simple
I'm replacing you replacing you
Replacing you with other people
