             Bm                                    Gbm
We're a product of a system in a world that never listens
G                    Em
To the messed up truth
Bm                                  Gbm
We're a burden and a blessing and we keep you second-guessing
G                       A
That's what we do, yeah
Bm
We're the kids in the corner
G                    Em
We don't look like you
Bm                    Gbm
We're the kids in the corner
G
We ain't taking shit from you, nah, nah
Em                             A
We know we go to dirty places
                     Bm
To find familiar faces
                   A
Lost in another life
                            Em
To forget that we ain't fine
(Never ever break alone)
A
(Never ever let you break alone)

G
We're the kids in the corner
Bm                       D
Wear our heroes on our clothes
G
Together, we feel a little warmer
Bm                               A
'Cause we're the only ones who knows
     G                  A
That we all cry from time to time
Bm                  A          G
In the dark, our eyes still shine
                                    A
'Cause we're the kids in the corner
                      Bm
All our heroes never die
Bm         A      E
Die, die, die, die
                      Bm
All our heroes never die
Bm         A      E
Die, die, die, die
Bm
Put your hands around our throat, call us "generation broke"
G                        A
But you won't silence us (Yeah, yeah)
Bm                                  Gbm
While you wonder how we're stable while we're dancing on the
tables

G                              A
All push and shove It's because
Em                               A
We know we go to dirty places
                        Bm
