

# Ambrosia - I Just Can't Let Go

tom:

[intro] E Am E Am

Oh, what's the matter baby?

Is the truth too hard to hear?

Well, I think you know I'm not the one who lied

Now it's all behind us

And we both play out our lives

But the years don't change the way I feel inside

So I'll play the game now

Though it feels the same now

Are you missin' me?

Well, baby, just be aware Of how much I still care

Oh, I need your love

[Refrão]

I gave to you my heart and soul

Now I just need to let you know

You're part of me that

I just can't let go

Well, tell me something baby

Is there still something inside

To remind you of the way it used to be?

And how the years they go by

Still there's something I must say

No one ever could have loved you more than me

So I'm passin' time now

Wishin' you were mine now

Are you missin' me?

Well, you know it's not too late

Oh, how long must I wait?

Oh, to hear you say

[Refrão]

I gave to you my heart and soul

Now I just need to let you know

You're part of me that

I just can't let go

Gooooo

[Ponte]

(And I ) Need your love (And I) need your love

Everywhere I go there's a memory

If you can't decide on me

Well, you gotta make up your mind

'Cause some day you're gonna find

You just might need me

( E Am E Am )

Well, baby just be aware

Of how much I still care

Oh, I need your love

[Refrão]

I gave to you my heart and soul

Now I just need to let you know

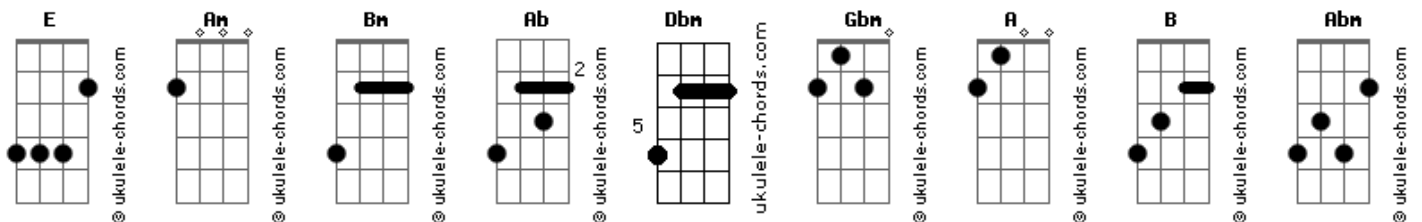

You're part of me that

I just can't let

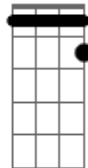

You're part of me that

I just can't let go go....o
