            Dbm
Oh the wind whistles down
                                                                And you wake up in the morning and you're head feels twice the
The cold dark street tonight
                                                                Where you gonna go? Where you gonna go?
And the people they were dancing to the music vibe
                                                                Where you gonna sleep tonight?
         Dbm
And the boys chase the girls with the curls in their hair
                                                                Where you gonna sleep tonight?
While the shy tormented youth sit way over there
                                                                And you're singing the songs
And the songs they get louder
                                                                Thinking this is the life
Each one better than before
                                                                And you wake up in the morning and you're head feels twice the
And you're singing the songs
                                                                Where you gonna go? Where you gonna go?
Thinking this is the life
                                                                Where you gonna sleep tonight?
And you wake up in the morning and you're head feels twice the
                                                                And you're singing the songs
Where you gonna go? Where you gonna go?
                                                                Thinking this is the life
                                                                And you wake up in the morning and you're head feels twice the
Where you gonna sleep tonight?
And you're singing the songs
                                                                Where you gonna go? Where you gonna go?
Thinking this is the life
                                                                Where you gonna sleep tonight?
And you wake up in the morning and you're head feels twice the
                                                                And you're singing the songs
Where you gonna go? Where you gonna go?
                                                                Thinking this is the life
Where you gonna sleep tonight?
                                                                And you wake up in the morning and you're head feels twice the
                                                                Where you gonna go? Where you gonna go?
So you're heading down the road in your taxi for four
                                                                                          Ahm
And you're waiting outside Jimmy's front door
                                                                Where you gonna sleep tonight?
But nobody's in and nobody's home 'til four
                                                                And you're singing the songs
             Dbm
So you're sitting there with nothing to do
                                                                Thinking this is the life

                                                                And you wake up in the morning and you're head feels twice the
And where you're gonna go and where you're gonna sleep tonight
                                                                Where you gonna go? Where you gonna go?
And you're singing the songs
                                                                Where you gonna sleep tonight?
