Tom: E

Intro: E   Gbm7   A   2x

```
Dbm              Abm       Gbm
Running down my batteries
Dbm           Abm       Gbm
Laying me out to rest
Dbm              Abm         Gbm
Knowing when that in five hours
Dbm         Abm      Gbm
I wake up into stress

E                        A
And I'm digging myself into a hole
E
And these days I just work
        A
On when one song had so much soul
```

CHORUS:
```
      E        Gbm       A7
And lately I've forgotten who I am
   E        Gbm        A7
Need to let my energy just drain away
      E        Gbm       A7
And now my mind is working overtime
      D#m7-   Ab7     Dbm      Abm    Gbm
It's been a lo.... ng day
                        Dbm  Abm    Gbm
Such a long day, ay, ay

mmm

      Dbm               Abm      Gbm
```

```
And while all my contemporary (all my friends say)
Dbm          Abm      Gbm
Are sitting in college now (sitting in a desk)
Dbm         Abm      Gbm
My education is dragging, dragging (yeah yeah)
Dbm         Abm      Gbm
My guitar through London town

E                                         A
And the thing that wakes me when I could sleep instead
 E
Is the thought that tonight
    A
I could fall back into bed
```

Chorus:
```
   E        Gbm       A7
And lately, I've forgotten who I am
   E        Gbm        A7
Need to let my energy just drain away
      E     Gbm      A7
And now my mind is working overtime
              D#m7-  Ab7     Dbm      Abm    Gbm
It's been a lo.......ng day              It's been a long day

D#m7-   Ab7        Dbm
     Recently my head
D#m7-   Ab7        Dbm
     It ain't recharged as such
D#m7-   Ab7        Dbm
     And sleep can only cure, yeah
