I'd rather be at home with Ray
                                                                I just, ooh I just need a friend

                                                                And have everyone think I've gone mad
That I can't learn from Mr Hathaway
                                                               And it's not just my pride

But I know it don't come in a shot glass
