

Ana Vilela - She

```
(com acordes na forma de G )
Capostraste na 2ª casa
Intro: G C G C
She is everything that I could dream about
She has the pretty smile
She brings joy to my life
She looks like paradise
Although she doesn't know how beautiful she is
I could spend the rest of my days \bar{}
Telling her this
That she is the light of my life
She is the sun of my whole heart
And I don't wanna spend one more day
Of my eternity without her because
She knows me better than myself
And she is perfect like nobody else
And I will sing this song every day if I have to Just because I love the way
```

```
She makes everything right
And even when she doesn't
She still makes me smile
Her eyes, they look like stars
And her lips speak atright to my heart
And even if she not know how wonderful she is
I would spend the rest of my days
Telling her this
'Cause she is the light of my life
She is the sun of my whole heart
And I don't wanna spend one more day
Of my eternity without her because
She knows me better than myself
And she is perfect like nobody else
And I will sing this song every day if I have to
Just because I love the way
I love you
```
