

Angel Olsen - Safe In The Womb

Tom: **A**

Intro: **A**

I was **A** safe when I was in the womb

I was **E** warm when I was wrestling

To get out **G D**

Out of the flesh **A**

A And the sound of the world filled easily

And the **E** eyes above watched eagerly

In the **G D** hopes

of the **A** nave

In the **G D** hopes

of a **A** change

It was **G D A** all bright, clear

It was **G D A** all bright, clear

A Deep in the nest of an endless dream

When a **E** stranger thought becomes of me

It can **G D A** slowly turn my blood

Just as the **G** rings around our ever burning **D** sun **A**

Eventually **G** wilt a once **D** freshly blooming **A** bud

It was **G D A** all bright, clear

Oh, it was **G D A** all bright, clear

G Subtly **D** shedding back the years **A**

And after it **G** all we soon **D** disappear **A**

Yes, into the **G** dark depths we all **D** soon **A** disappear

Out of this **G** labyrinth that makes our, our **D** world **A**

How do we **G** ever know the light inside **D** ourselves? **A**

To know that the **G** skin that we wear is **D** raw **A**

That we can be **G** anything if we **D** know anything at all **A**

Yes, we can be **G** anything if we **D** know anything at all **A**

G D A Bright, clear

G D A And it was bright, clear

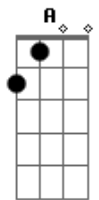

G D A
