

Angels & Airwaves - All That We Are

tom:
D

The ice is really cold
Dadd9

The streetlights, really old
Dadd9

Who child's all alone
D

As she melts into her own
Dadd9

And slowly fades away
Dadd9

Into a river full of shame
G

But at least numb to the pain
D

Can you see it?
Dadd9

Can you feel the shallow wave
Dadd9

From a needle to the grave
G

From her hell to far away
D

You're my only
Dadd9

You're so sad, my valentine
Dadd9

On your journey to the light
G

But first straight to the fire

D

And we are
G

All that we are
D

Holding on
G

Till we fall apart

And we are
G

All that we are
D

Holding on
G

Till we fall apart

D

And we are
G

All that we are
D

Holding on
G

Till we fall apart

D

And we are
G

All that we are
D

Holding on
G

Till we fall apart

D

We are
G

All that we are
D

All that we are
G

All that we are
G

All that we are
D

All that we are
G

All that we are
D

All that we are
D

All that we are

Acordes
