

Angra - Nothing to Say

```
Tom: E
Long ago, the same sky above
"It's lonesome when the sun goes down"
A day had come when we were like one
Weapons up, never surrender!
               G Ab Em
Oooh, I saw the gleams of gold
C Am G Ab Em
We'd kill and die conquering a virgin world
 C Am G Ab F Em
The hold corrupted by the honour
Living forevermore, leaving today
Back to my place, I've got
Nothing to say!
Guilt and shame, it's all so insane
Pagan gods die with no defense
And we could go no further at all
Digging the graves of our conscience
Oooh, the sounds, they still echo
C Am G Ab Em
All of us drifting on seas of blood
 C Am G Ab F Em
```

```
The hope hidden behind the
Living forevermore, leaving today
Back from this land, I've got
      Em
Nothing to say!
Living forevermore, leaving today
         С
For all what remains I've got
Nothing to say!
              G
                    Ab Em
Oooh, how many years have gone
C Am G Ab Em
Every morning I bare myself from love
 C Am G Ab F Em
The love rising up from the
       C Am
Living forevermore, leaving today
         C
For all what remains I've got
Nothing to say!
Living forevermore - Nothing to say!

Back to my place, I've got
