

# ANIE - And I Go (The New Beginning)

tom:

Intro: G D G C

Time was running wild

I'm sorry I can't breathe

I've turned myself to me

Watching far from here

I've caught a glimpse

Of what we have been made

Savage like a dream

I still recall the name

Always there

Never ending try

I believe

Eyes never lie

I'm faster than this test now I can see

Faster than this strain so ride with me

And I gooo

These fellings make the turn inside of me

This shall pass but everything is real

Down on my knees I watch the flow of spring... Going on

Float through my eyes

Nothing is the same

Time can change my being

But I can't trace the feel

Always there

Never ending try

I believe

Eyes never lie

I'm Faster than this strain so ride with me

And I gooo

These fellings make the turn inside of me

This shall pass but everything is real

Down on my knees I watch the flow of spring

Going on

And I gooo

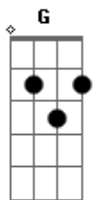

These fellings make the turn inside of me

This shall pass but everything is real

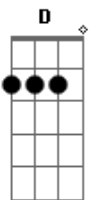

Down on my knees I watch the flow of spring

Going on
