

ANIE - If You're Gone

tom:

Intro: D

Walking in a crowded place

Was June was a sunny day I remember you

I couldn't stop watching you

Your eyes brighter than the moon

Your lips like no other

I walked to you and asked your name

You looked at me and felt the same

If you're gone nothing would hold me back

I would search you everywhere

Just to be with you

If you leave I will fight till I have you back

To build a better path

I can't think of losing you

There's no better place to be

Than with you

Time goes by and by

We slept like it was the first time

Holding you in my arms

I hear your heart while you sleep

I touch your shoulder with my lips

I love the smell I feel

Remember our first kiss and first night

Like in a movie you have to be mine

If you're gone nothing would hold me back

I would search you everywhere

Just to be with you

If you leave I will fight till I have you back

To build a better path

I can't think of losing you

There's no better place to be

(B A E)
(G A B)

There's no better place

Oh oh oh oh

If you're gone

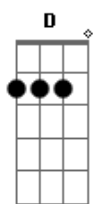

Just to be with you

If you leave

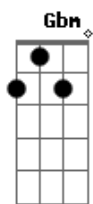

I'll just to be with you, with you, with you

[Final] G A B E
