Letra:

(introdução)

(Verso 1)

You've never met before

But still she greets you like a long lost rock and roll

She's definitely one of those

But you'll go wherever she goes

And when my body and my mind

Both start talking at the exact same time

Trying to think of ways to make her mine

But they're difficult to find

(Refrão 1)

It's not what i need

No, your love's not what i need

So don't give it to me

(Verso 2)

And she said: "oh, well i knew this will sound cold

But i really have to go

Oh, it's not that i'm not free

There's nowhere i need to be

It's just your love's not what i need

So don't give it to me"

(refrão 2)

It's not what i need

No, your love's not what i need

So don't give it to me

(Ponte)

She said: "baby, how can i believe you

How can i believe you when you can't believe your luck?"

No point sticking to the plan when it's going slow

It's more a hunger than a thirst

You'll break it out the second time

Before you know about the first

Looks well-equipped to leave you in the lurch

But you'll let her do her worst

And it's not hard to tell

It's obvious the other angels' faces fell

When she told them that she had to go

Troubled wings and overcoat for something colorful

(tha knows)

(Solo)

(Refrão 3)

It's not what i need

No, your love's not what i need

So don't give it to me

No, your love's not what i need

So don't give it to me

No, your love's not what i need

So don't give it to me

No, your love's not what i need

So don't give it to me  
Your love's not what i need
