

Ariana Grande - Blazed (featuring. Pharrell Williams)

Tom: G

There is somethin' between us, I can see it right now
 Your magnetic demeanor, that's something can't be found
 I thought that I was dreamin' 'til my love came around
 Now I just come on over, show you how we get down

Shawty, you can get blazed

I can't believe that you are here, I can't believe it's happening

What are the odds that you'd appear?

The universe so vast to me

Seven billion is on the Earth

Could've been anywhere, but you're here with me

Should I play Lotto? What's it worth?

I must be on, so clear to me

Once I have you, I will never let you, never let you go
 Once I have you, I will never let you, never let you go

Never let you, never let you go

Never let you, never let you go

Never let you, never let you go

Never let you

Look at you, love, you are the same

You have a light you cannot hide

Yes, you may have a different face

But your soul is the same inside

I don't care who is listening

'Cause they be making fun of this on TV

They wouldn't laugh if they were inside my past life

With you and they were me

Once I have you, I will never let you, never let you go
 Once I have you, I will never let you, never let you go

Never let you, never let you go

Never let you, never let you go

Never let you, never let you go

Never let you

Don't think that it cannot happen, 'cause it can
 Shawty, you can get blazed

Sleep if you want, and wake up in love again

Shawty, you can get blazed

Once I have you, I will never let you, never let you go
 Once I have you, I will never let you, never let you go

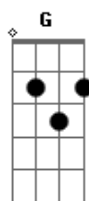

Never let you, never let you go

Never let you, never let you go

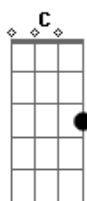

Never let you, never let you go

Never let you
