

Ariana Grande - One Last Time

```
Tom: Ab
                                                              At least just temporarily
                                            D )
(com acordes na forma de
Capostraste na 6º casa
                                                              I know that this is my fault
Intro: Bm A D G A
                                                              I should have been more careful
                                                              And I know, and I know, and I know
I was a liar
                                                              She gives you everything but boy I couldn't give it to you
                                                              And I know, and I know, and I know
I gave into the fire
I know I should've fought it
                                                              That you got everything
At least I'm being honest
                                                              But I got nothing here without you
                                                                 Bm A
Feel like a failure
                                                              So one last time
Cause I know that I failed you
                                                              I need to be the one who takes you home
                                                              Bm A D
I should've done you better
                                                              One more time
Cause you don't want a liar
                                                              I promise after that, I'll let you go
And I know, and I know, and I know
                                                              Baby I don't care if you got hurt in your heart
She gives you everything but boy I couldn't give it to you
                                                               All I really care is you wake up in my arms
And I know, and I know, and I know
                                                              One last time
That you got everything
                                                              I need to be the one who takes you home
But I got nothing here without you
                                                              (Bm A D)
 Bm A D
So one last time
                                                              I know I should've fought it
I need to be the one who takes you home
                                                              At least I'm being honest
Bm A D
One more time
                                                              But stay with me a minute
I promise after that, I'll let you go
                                                              I'll swear I'll make it worth it
Baby I don't care if you got hurt in your heart
                                                              Cause I don't want to be without you
All I really care is you wake up in my arms
Bm A D
One last time
                                                              So one last time
I need to be the one who takes you home
                                                              I need to be the one who takes you home
                                                              Bm A D
                                                              One more time
I don't deserve it
                                                                      G
                                                              I promise after that, I'll let you go
I know I don't deserve it
But stay with me a minute
                                                              Baby I don't care if you got hurt in your heart
I'll swear I'll make it worth it
                                                               All I really care is you wake up in my arms
                                                              Bm A D
                                                              One last time
Can't you forgive me
                                                              I need to be the one who takes you home
